Introduction

Every year, thousands of Pakistani Medical students face the prime concern of getting admission in a good medical institution for higher studies. Few students manage to clear the entrance tests for government universities while others keep looking for options in private universities. Most of the students cannot afford the high donation the private universities ask for. In such circumstances come the foreign medical universities to the salvage of Pakistani medical students.

Medical Planners provides Pakistani students with a single hand solution to all the troubles and concerns they might have. Many countries, which are believed to be the best countries for MBBS are known for not only providing affordable options but also for the best quality education. **Medical Planners** also opens up new worldly opportunities to its pursuers.

 - ❖ 4000+ Pakistani

One of the major questions students have in their mind after completing MBBS abroad is, '**how can I practice in Pakistan?**'. Once you have completed your MBBS from Kyrgyzstan, the students have to follow 3 more steps in order to practice in Pakistan.

1. Get RMP letter from PMC for house job.
2. Complete 1 year of House Job in Pakistan.
3. Clear the NLE (Step 1, Step 2) Exam.

After completing the above process, the medical students can get the permanent License of a **Government Doctor**.
